### REASONS FOR ALLOWANCE

1. In response to applicant's amendment filed 3/4/2004, claims 1 and 8 have been amended; claims 9-20 canceled and claim 21 added. Applicant's arguments have been considered and found persuasive, in that while Charles teaches conformal coating a dielectric layer at different orientations to reduce reflectivity (col. 6, lines 27-56), Charles (6,289,030) requires both a dielectric layer and a metal layer (col. 8, lines 41-46) for high reflectivity. Claims 1-8 and 21 are pending and allowed.

2. The following is an examiner's statement of reasons for allowance: The claims are allowed primarily because the cited prior art do not teach or fairly suggest a method including the step of **coating a plurality of dielectric layers simultaneously on facets of an optical device in which light travels horizontally to increase facet reflectance.**

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Quyen P. Leung whose telephone number is (571)272-1943. The examiner can normally be reached on 8-4:30, M-F.
